UTR Therapeutics is an IND stage biotech company with a first-in-class technology that can overwrite any target of interest. We've proven this robustly in difficult to treat cancers and are ready to scale into Neurodegenerative and Rare Diseases.

UTR is about the production of some of the finest drugs for cancer treatments, ranging from lung cancer, brain cancer, tumour, and the worst stage of cancer, and with the growing rates of death tolls from cancerous ailments UTR is growing to become the standout solution to this seemingly impossible task.

Breakthroughs:

Before now cancerous death toll has risen to unimaginable numbers seeing the total cure hasn't been 100% established, UTR with its numerous innovations and discoveries have formed and produced certain numbers of tested Cancer treatments, ranging from Alzheimer's, women cancer and the likes, hence UTR, is one of the Frontline runners to produce some of the most sophisticated treatments for Cancer cases.

ABOUT UTR TNBC TOKEN

Unique Tokenisation of UTR:

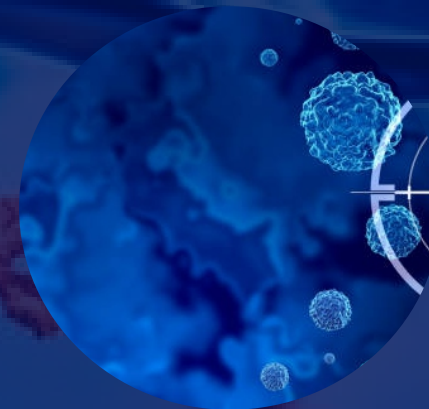

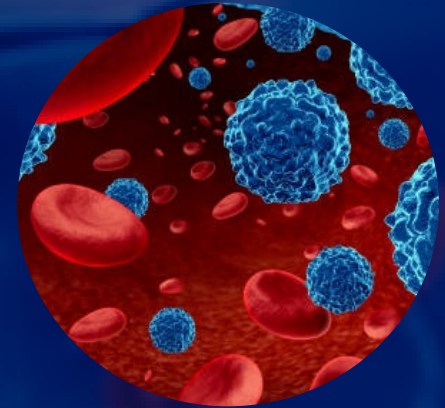

With blockchain Technology taking over mostly all human endeavors UTR aims to build a blockchain structure not just only for the tokenization of it but also for the swiftness and ease blockchain Technology brings. This drives the UTR project to building it's own token, for the sole purpose of aiding in and on chain transactions and also for the further funding of the UTR Ecosystem.

Tokenisation:

As UTR seeks to stand out as an elite in the world, the blockchain Technology side of it needs to be established in that upon requirements govt, institutions, individuals will have almost no worries in accessing this treatments as it will be available at just a click, hence UTR is building it's ecosystem around blockchain for its ease in payments and purchasing of this products.

Target Market & Opportunities:

With cancer ravaging at least 10-35% of the world population and statistics showing 1-5% of at least every city in the world have known Cancer cases, this is a worldwide market waiting to be taken, and with UTR's innovative discoveries, treatments of Cancer and ofcourse every form of it will be of great impact on the society and that will in-turn build UTR to one of the finesse companies in the world.

UTR TNBC ECOSYSTEM

Revenue / Business Model

As of today, one of the most sought after industry is the healthcare industry, and safe to say this will linger as long as human existence, so UTR takes pride in this adventure to becoming a big player on how this industry grows. Incorporating UTR as an innovative Health company and UTR TNBC as an established currency will further strengthen the ecosystem as things grow.

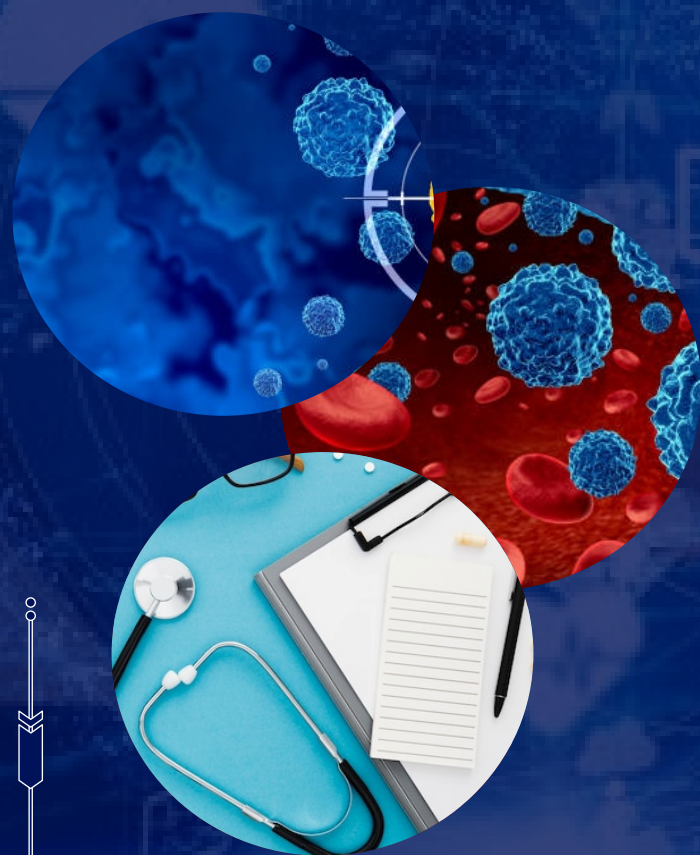

As an already established company estimated at \$77 million Dollars UTR will set aside 10% of the entire company's shares and that will be tokenized to the further building of the UTR TNBC token ICO

Phases.

Investors who come for the UTR ICO phases will be entitled to 10% tokenized share holding of the UTR, this is to further strengthen the bond between UTR and its founding members..

- The generated revenue will then be used to further establish the many discoveries of the the UTR Ecosystem ranging from more discoveries of Cancer treatments and this will also further strengthen fundings for the test and approvals of govt and healthcare institutions to drive this further to the general market.

- The UTR TNBC seed round will only be opened to certain values of the company and UTR company holds the rights to put it off market once the initial funding threshold has been reached and UTR will decide whether or not this will be opened in the future.
